LESSON TASK

INTRODUCTION (5 min):

SlideWiki is an online slideshow tool that offers users the chance to create and collaborate on slides, assessments and to share content as structured open educational resources using a Creative Commons licence. With SlideWiki you can engage with your audience by collaborating with colleagues to co-design and co-create course materials and share your knowledge across the world.

SlideWiki empowers communities of educators to author, share and re-use sophisticated educational content in a truly collaborative way. Existing presentations can be imported and transformed into interactive courses using HTML. Slides can be supplemented with comments, links to sources and materials as well as questions to help learners.

Activity 1 (5 min):

Create an account to start exploring decks.

Activity 2 (5 min):

Sign in and edit your profile at personal settings.

Activity 3 (15 min):

Explore the decks using advanced search options.

Activity 4 (15 min):

Share with your students the decks which are relevant to your courses or create a list with suggested decks for their reference.

- knowledge across the world.
- SlideWiki is an open-source platform, and all its content can be reused under Creative Commons CC-BY-SA license.

- Collaborative learning

LEARNING OUTCOME

By completing this lesson task, adult educators will be able to

- Create an account to start exploring decks.
- Sign in and edit their personal settings.
- Explore the decks using advanced search options.
- Print, download, report, like, subscribe and share decks.

REFLECTION

- Self-reflect on the level of completion of each activity.
- Which have been the driving forces and the challenges you encountered during each activity?
- Have you been able to share decks with your students?
- Were the decks you shared tailored to their needs?
- What was the best part of this lesson?
- Would you consider creating your own deck?
- Would you consider adjusting an existing deck to the needs of your students?

TESTING / ASSESSMENT

- The most important is to participate and **get involved**.
- Next, important aspect what indicates a successful lesson that lesson **task is achieved** (according to the plan or with other ideas, if possible).
- Awareness and correction of mistakes is also a very good achievement of the lesson (**problem solving**)
- To assess learners' **knowledge**:
Check if the account has been created.
Check if they are able to sign in and edit their personal settings.
Count the number of the decks they explored.
Count the number of the decks they shared with their students.
